

- Automatic flipping
- Customize the Return Point
- Autonomous driving function
- Automatic return when out of control
- Super strong wind and wave resistance
- Automatic course correction
- Easy-to-replace batteries
- Fluid mechanics-based boat design
- Accessory dock supports a variety of Device

SPECIFICATIONS

Name/Model:	Fiturn water rescue robot FT-04-W
Product Size:	1064*775.6*240mm (L*W*H) (Flight cases packaging size: 1310*930*310mm) (Honeycomb carton packaging: 1160*860*290mm)
Manned Speed:	Manned Speed: 7.2-10.8 km/h, Unmanned Speed :20-27km/h
Product Weight:	20.1KG (Including Battery weight 4.1KG)
Running Time:	28-45 minutes
Product Voltage:	25V
Rated Power:	3000W
Battery Capacity:	24Ah
GPS:	Real Time GPS + Beidou Positioning
Load Capacity:	200kg
Remote Control Range:	2000 meters
Charging Time:	3 hours
